

Senator Ellen M. Corbett

invites you to a rally and press conference

Join advocates from across the state to show your support for the continued fight to create consumer friendly prescription labels and save lives.

Mobilize to support easy to read prescription drug labels.

Senate Bill 472 required the Board of Pharmacy to take public input and create consumer-friendly regulations, but the board has ignored public comments. Studies show that misreading of prescription labels can lead to injury or even death.
